

APS COMMUNITY CO-RESPONSIBILITY AND CO-ACCOUNTABILITY UNDERTAKING

At the start of the First Trimester and First Term of School Year 2022-2023, all AGSB students will be asked to sign this one-time APS Community Co-Responsibility and Co-Accountability Undertaking to affirm our commitment to protecting the health of everyone within the Ateneo Professional Schools (APS), in our partner institutions, and in the wider community.

The purpose of this Undertaking is to support the safety and well-being of our APS community as well as the institutions and communities we will engage in. It is a commitment and affirmation of our shared values of Cura Personalis and Magis and a living out of our being Persons for Others. It serves to supplement our existing responsibilities under the University and APS policies.

As we transition into face-to-face and hybrid flex activities guided by DOH, IATF, and other government and University regulations, we must diligently and responsibly abide by these regulations in order to protect each other, accepting individual responsibility for our collective personal and community safety.

In consideration of the foregoing, we, the Administrators, Faculty, Staff, and the students of the AGSB, understand, acknowledge, and agree that:

1. As members of a Filipino, Catholic, and Jesuit University, we are committed to the endeavor of promoting the safety and well-being of all members of the AGSB community.
2. The school (AGSB) will provide the necessary precautionary measures, provisions for safety, class schedules, and venues to help safeguard the welfare of our students, faculty, and staff.
3. The students, as responsible business leaders, understand the risks associated with pursuing onsite classes.
4. The students, faculty, and staff will all need to make adjustments to their daily lives and routines and develop new habits to enable academic activity to take place as safely as possible. In doing so, we all need to treat each other with compassion, respect, and understanding.
5. The school has put preventive measures in place to minimize health risks to students, staff and faculty. However, it cannot eliminate all potential sources of COVID-19 infection.
6. The risk of becoming exposed to or infected by COVID-19 may arise from the actions, omissions, or negligence of each of our individual selves and/or others.
7. Each student, faculty member, and staff member is expected to adhere to public health measures and school protocols to help reduce this risk for everyone.
8. Each student, faculty member and staff member has a responsibility for both his/her own health and that of others, especially those with vulnerabilities.
9. We are all in a public health crisis and it is our responsibility to act responsibly and be accountable for our actions that may affect the larger community.
10. We fully understand all the foregoing responsibilities and associated risks.
